

January 31, 2022

Ms. Carole Johnson
Administrator
U.S. Health Resources & Services Administration
U.S. Department of Health and Human Services
5600 Fishers Lane
Rockville, MD 20857

Dear Administrator Johnson,

On behalf of the Nursing Community Coalition (NCC), which includes 63 member organizations, we congratulate you on your appointment as the Administrator of the U.S. Health Resources & Services Administration (HRSA) and welcome the opportunity to meet and discuss shared goals, especially during these unprecedented times. The NCC represents a cross section of education, practice, research, and regulation within the nursing profession and believes that the healthcare delivery system should be one that promotes wellness, advances research through scientific discovery, and provides timely access to care across the life continuum. We are proud to continue our work with HRSA, especially as nurses, Advanced Practice Registered Nurses (APRNs)<sup>1</sup>, nursing students, and nurse leaders represent the largest segment of the healthcare workforce.

During the ongoing COVID-19 pandemic, as with every public health crisis this country has faced, nurses and APRNs are the experts leading at the frontlines of the healthcare response. For years, our coalition has worked with HRSA to bolster the Title VIII Nursing Workforce Development Programs. This includes increasing nursing workforce diversity, supporting our APRNs, meeting the shifting demands in health care through innovative programs, providing loan repayment and scholarships through the Nurse Corps, and encouraging those to become nurse faculty and help educate the next generation of nurses. These programs continue to be essential components as we work to meet the nation's demand for nursing services and address the needs of all communities, especially during this public health challenge.

The dedication you have had throughout your career to confront public health challenges and create a more equitable health care system underlines HRSA's essential work to support our current

<sup>&</sup>lt;sup>1</sup> APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs) and nurse practitioners (NPs).

and future nursing workforce who are an integral link to increasing access to all aspects of care, no matter if it is in remote rural areas or large urban cities. Ensuring the health of our communities across the country is crucial and that is why we also support initiatives that remove barriers to practice, encourage innovation, increase flexibility in telehealth provisions, coverage, and reimbursement, and extend, or make permanent, waivers issued during this public health emergency.

The unique partnership the NCC has created allows our national nursing organizations to unite on shared priorities and promote America's health through the nursing lens. We stand ready to work with you as we combat COVID-19, bolster our Title VIII Nursing Workforce Development Programs, preserve critical advancements, and support the health of our nation. If the Nursing Community Coalition can be of any assistance to you or your staff, and to set up a meeting to discuss shared goals, please do not hesitate to contact the coalition's Executive Director, Rachel Stevenson, at <a href="mailto:rstevenson@thenursingcommunity.org">rstevenson@thenursingcommunity.org</a> or at 202-463-6930, ext. 271.
