Dear Chairmen Frelinghuysen and Cole and Ranking Members Lowey and DeLauro:

On behalf of the 58 undersigned organizations representing the Nursing Community coalition, we would like to thank you for your dedication to the nursing profession by protecting funding for the Nursing Workforce Development Programs (Title VIII, Public Health Service Act) at $244 million for FY 2017 and increasing funding for the National Institute of Nursing Research (NINR) to $150.273 million. We appreciate the unwavering bipartisan support for these programs in an uncertain fiscal climate.

Collectively, the Nursing Community represents registered nurses, advanced practice registered nurses, nurse faculty, researchers, and students, and is committed to promoting efforts that advance the health of our nation through nursing care. As the demand for high-quality care intensifies, there must be a firm investment in the nation’s largest healthcare workforce; registered nurses.

Support for Title VIII programs directly contributes to the health and wellness of America by ensuring that the future pipeline of nurses is able to meet our nation’s most pressing healthcare demands. This is further advanced by funding the scientific endeavors through NINR research that have been integral to advancing the health of individuals, families, and communities.

We applaud the efforts you and the Subcommittee have made in making America’s health a top priority by supporting the nursing workforce and the research that drives their practice. We
continue to look forward to working with you and your staff as the FY 2018 appropriations process continues this Congress. If our organizations can be of any assistance, or if you have any questions, please contact Convener of the Nursing Community, Dr. Suzanne Miyamoto, at Smiyamoto@aacn.nche.edu or 202-463-6930, ext. 247.
