ANNA

Program Goal

The Fall Meeting provides professionals an opportunity to learn and develop an interest in career tracks that are available within the field of nephrology nursing. Participants are welcome at any session and are encouraged to individualize their learning experience. This meeting addresses the challenges in caring for individuals with chronic kidney disease (CKD) in various settings and across the lifespan.

Join Us in Savannah!

ANNA’s Fall Meeting for Nephrology Nurses, Managers, and Advanced Practice Nurses offers you an opportunity to learn, network, and recharge for a productive return to your workplace. If your role includes clinical practice, advanced practice, and/or nursing management, this program will provide valuable information and help you improve your practice and skills.

Optional workshops, including hands-on opportunities, are just one of the exciting features of this year’s program. Concurrent sessions provide a choice of “hot” topics addressing current issues and trends in nephrology nursing practice and offer you the opportunity to tailor your program to meet your interests.

Don’t miss this dynamic educational program. Register by September 2 to take advantage of reduced rates! We look forward to welcoming you to Savannah.

Sincerely,
Fall Meeting Planning Committee
