OTHER:

- Spell out all abbreviations on first use.
- Make sure all citations have a reference.
- For lab results or anything with a measurement, make sure the measurement is clear. For example, calcium is 9.0 mg/dL, not just 9.0; GFR is not 29, it is 29 mL/min/1.73m².

AT END OF ALL FACT SHEETS, INCLUDE:

- References in APA Format
- Contact Information for Questions
